

DEVANSH NAHAR

Full Stack Developer · MERN Stack

☎ +91 7719694183 | ✉ devanshNahar07@gmail.com | github.com/Devansh-sys899 | linkedin.com/in/devansh-nahar-9a093a3b8

PROFESSIONAL SUMMARY

Results-driven BCA student (2nd Year) with hands-on expertise in full stack development using the MERN stack. Proven ability to architect and deliver end-to-end web applications—spanning RESTful API design, database modelling, and responsive React frontends. Passionate about building scalable, user-centric software and eager to contribute to high-impact engineering teams.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js
Backend	Node.js, Express.js, RESTful API Design
Database	MongoDB, Mongoose ODM
Automation	n8n Workflow Automation
Tools & DevOps	Git, GitHub, Vercel, Render

PROJECTS

Unispace – B2B Co-working Scheduler<https://github.com/Devansh-sys899/Unispace>

- Engineered a full-stack platform enabling businesses to manage and schedule co-working spaces in real time.
- Designed and implemented RESTful APIs with Express.js and Node.js, maintaining clean MVC separation.
- Leveraged MongoDB for flexible, efficient storage and retrieval of booking and user data.

NeuroBridge – Cognitive Retainer Assistant<https://github.com/Devansh-sys899/NeuroBridge>

- Built a smart productivity assistant to help users organise and retain cognitive tasks and notes.
- Developed a dynamic, responsive UI with React.js, focusing on performance and component efficiency.
- Prioritised UX through intuitive navigation patterns and optimised client-side rendering.

RouteX – Visa & Immigration Web Platform<https://github.com/Devansh-sys899/RouteX>

- Delivered a fully responsive visa and immigration website using modern React.js UI components.
- Implemented backend routing and data flow logic in Node.js for structured, reliable API responses.
- Applied mobile-first design principles to ensure cross-device compatibility and smooth navigation.

EDUCATION

Bachelor of Computer Applications (BCA) 2024 – Present

Pyramid College of Business and Technology · 2nd Year
